Engineer and founder. I find where a business loses hours to admin, put a dollar figure on it, and automate what pays back first. I lead each engagement end to end, from the on-site audit to the system in production, drawing on a small network of specialists when the build calls for it. Paid projects delivered for businesses in Australia, France, Switzerland and Mauritius.

EXPERIENCE

Founder · Astro Automate, process audits and AI automation — Oct 2025 to present · Perth and remote

- Process audits that rank 3 to 5 automations by annual savings, then fixed-price builds, one automation at a time, starting with the most profitable.
- Built Orion, a multi-supplier ordering platform for hospitality: a Perth café compares its suppliers in one screen and runs its inventory and orders on it every day.
- Delivered for hospitality, trades, e-commerce, B2B distribution and training firms: n8n workflows, AI agents, scraping across 60+ countries, websites with client editing tools.
- Stack: self-hosted n8n, Claude and Gemini APIs, RAG, Supabase, Stripe, Twilio, Microsoft 365, Next.js and Node.

Filmmaker and AI Automation Engineer · Natec Medical — Aug 2025 to Feb 2026 · Mauritius

- Automated the recruitment process with AI, cutting manual screening and admin work.
- Directed internal training videos end to end, coordinating cross-functional teams.

Digital Consultant · ORISE Human Change, coaching and training — Jan 2025 to May 2026 · France, hybrid

- Built a custom CRM and automations that cut administrative time by 40%; rolled out a Notion workspace adopted by the whole team; built AI agents.
- Co-delivered leadership training and designed learning materials used with 200+ employees of corporate partners.

Industrial Process Optimisation Intern · Legrand France — May to Aug 2025 · Strasbourg

- Lean and CSR project on internal waste flows: operator movements down 60 to 90%, travel time down 69% on average, forklifts removed from workshops.
- Documented the method for other sites and trained operators.

Continuous Improvement Intern · OREST Group, jewellery, LVMH supplier — Jun to Jul 2024 · Erstein

- Set up Lean visual management indicators on the production line to track weekly targets.

WHAT CLIENTS SAY

> "*Sent in the morning, done by noon. Speed and efficiency: a great partner for n8n automations!*"
> Thomas, n8n workflow client (5-star review)

> "*He took the time to understand the finer points of my trade. The collaboration was smooth, easy and very pleasant.*"
> Philippe Noret, Atelier Le 6

EDUCATION

Master of Project Management · Curtin University — Feb 2026 to Dec 2027 · Perth

- Semester 1 passed with a 75 weighted average. Project lifecycle, planning and scheduling (MS Project), agile management, research methods; in 2027 cost, risk, procurement and portfolio management.

Engineering degree (Diplôme d'Ingénieur) · ICAM Strasbourg-Europe — 2021 to 2026

- Generalist engineering: industrial systems, Lean and quality, project management, computer science. Final-year internship graded 18.25/20. Exchange year at Vilnius Tech, Lithuania (2022 to 2023).

SKILLS

Automation
n8n, Zapier, Make, process mapping

AI
Claude and OpenAI APIs, RAG, AI agents, prompt engineering

Integration
REST APIs, webhooks, Microsoft Graph, SharePoint, Supabase, PostgreSQL, Playwright

Engineering
Python, JavaScript and Node, Next.js, Git, Lean, MS Project, Agile

Languages
French (native), English (IELTS 7.0, C1), German (intermediate)

CERTIFICATIONS

- Claude Code 101 (Anthropic, 2026) · Agentic AI (LinkedIn, 2026) · Google AI Essentials (2026)
- Transforming Project Management with AI Agents, MS Project 2019 (PMI, 2026) · PMI Student Member, WA
- Six Sigma Yellow Belt, Lean Six Sigma White Belt, Lean Management Expert (Six Sigma Academy Amsterdam, 2024)
